About Me

- Accomplished Website Developer based in Karachi, Pakistan, with a proven track record in creating responsive and interactive websites using Next.js, Tailwind CSS, and TypeScript. Currently a student at the Governor Sindh Initiative for GenAI, Web3, and Metaverse, learning advanced web technologies and developing innovative applications. Skilled in integrating Sanity CMS for scalable content management and committed to advancing expertise in creative technology fields. Career goals include growing as a versatile designer and developer by leveraging unique insights into cuttingedge technologies.

EXPERIENCE

2023 to Present

- Created responsive websites by implementing streamlined code and design principles.
- Engineered interactive front-end solutions with Next.js, Tailwind CSS, and TypeScript.
- Integrated Sanity CMS for content management, improving scalability and flexibility.
- Worked on API integration and improved site performance and accessibility
- Ensured clean coding standards and user-friendly designs for captivating audience interactions and brand elevation.

Achievement

- Aimed to advance skill set through hands-on experience in creative technology fields.
- Expertise in developing interactive and user-centric online experiences
- Maintained up-to-date knowledge of product features and benefits to provide accurate information to clients.
